

D-LIGHT*The way to provide you 100 % solar solution*

The Next Generation Solar Home Lighting System

A *Big* features in a small package

A dream of those people who live in remote areas, where Power is like welcoming god. A dream of those people who traveled from long distance and explained there common needs to us.

D-Light's EcoGen the dream of those people who asked for : Atleast 2 Lights + 1 Fan / TV. B/W + Mobile charging + Great backup + Price within the pocket + Long Lasting Product + Easy to install (plug & ready to use) + Trouble free functions + Reliable + Smart Look. Now the dream comes true with the new age product EcoGen :

**Models
25 & 40Wp****12V DC
System***The need of every people*

EcoGen

The Compact Solar Power Pack

Technical Specifications

Available Size	D-Light EcoGen25
Controller consists of	MS inverter circuit Cooling inbuilt with Battery-DV / 25W-5W CC ² protection card with LED indicating Low B Over charging cut off Capacity DV / BA short circuit Fuse protection-MS TV Based Mobile charging electronic circuit-DV / AVR Solar Charging-DV / 25Wp (Phone type) DV DC to operate- 3x7W DC-11 DC Fan/TV (20W)- See socket to charge Mobile 5 hrs. Dimension / Weight:
Input	0.85A x (W-7.5) x (H-17) / 0.5 Kg.
Output	Wall Mounted, Table base, handy to carry.
Backup (per day)	
Dimension / Weight:	

Available Size	D-Light EcoGen40
Controller consists of	MS inverter circuit Cooling inbuilt with Battery-DV / 40W-5W CC ² protection card with LED indicating Low B Over charging cut off Capacity DV / BA short circuit Fuse protection-MS TV Based Mobile charging electronic circuit-DV / AVR Solar Charging-DV / 40Wp (Phone type) DV DC to operate- 3x7W DC-11 DC Fan/TV (20W)- See socket to charge Mobile 7 hrs. Dimension / Weight:
Input	0.85A x (W-7.5) x (H-17) / 0.6 Kg.
Output	Wall Mounted, Table base, handy to carry.
Backup (per day)	
Dimension / Weight:
